

Karakum Tasca acc. sella serbatoio
Karakum Tank coupling pocket

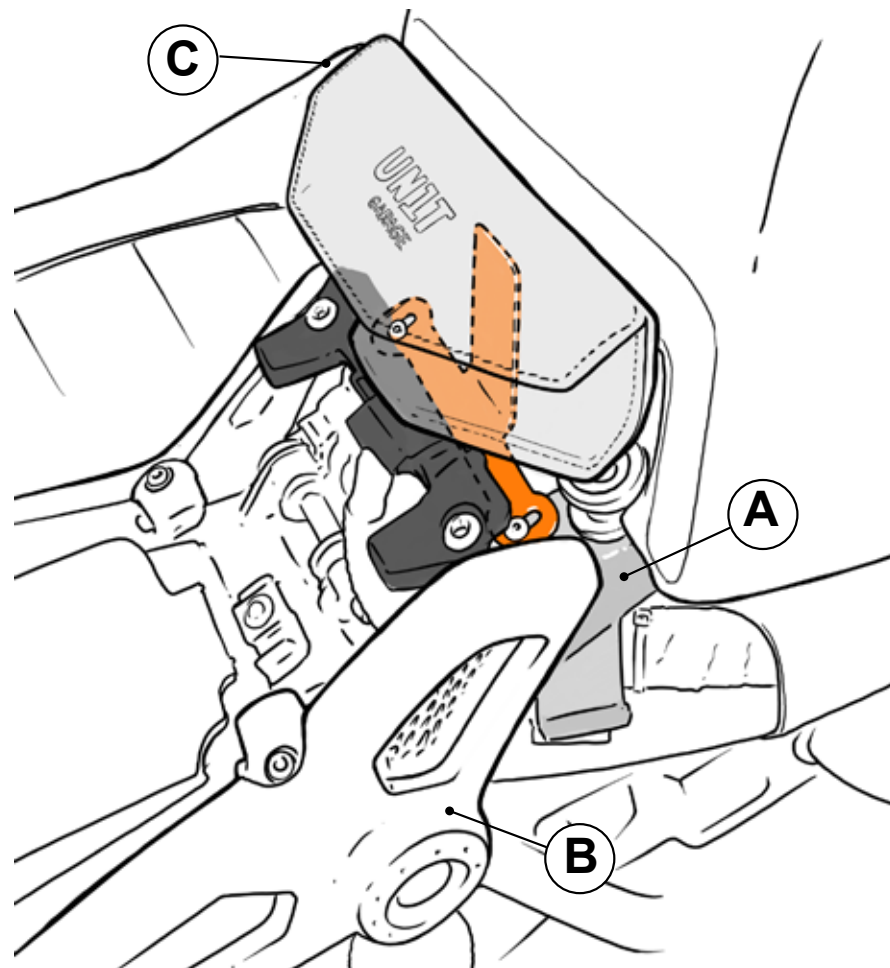

The bracket for the Karakum tank pocket is fixed as indicated in the picture. It should be mounted onto the black metal brackets **(A)** included in the kit and not onto the aluminium triangles **(B)**. Note that when installed correctly the top of the pocket will be flush with the seat **(C)**.

La staffa per la tasca del serbatoio Karakum è fissata come indicato in figura. Quindi non nei triangoli in alluminio **(B)**, ma sulle staffe in metallo nero **(A)** in dotazione con il kit. Notare che, se installato correttamente, la parte superiore della tasca sarà a filo con la sella **(C)**.
